WE DON'T TRY TO IMPROVE ON NATURE
when she grows peas like these

When you open a can of Emfo Sweet Peas, you'll notice that they are just like the ones you eat out of the pods. Inside peas, outside peas, big peas... all together, just as Nature grows them.

That's the way you enjoy peas in winter. That's the way we bring them to you in winter... garden-sweet, frolicsome, charged peas that you might have picked yourself this very morning.

Except for this... no saltier peas have

the sweet, delicate flavor, the fine richness of these tender, dappled sugar peas... you'll see when you taste them why we guard their secret so closely.

It's this deliciously flavor that has made them famous... might as well say to buy in big supplies of Emfo Sweet Peas the moment they come that the new crop is at their grocer's. They're so near-spread

them... in open-air delights. Don't wait to enjoy them... serve them tonight. Growed and packed in Canada.

Sal Hepatica's DOUBLE ACTION* will help restore your energy

...¹**Because it combats Acidity as well as Constipation**

REMEMBER THIS—when you suffer from constipation you probably suffer from excess acidity, too. It's nearly every case the one accompanies the other.

And you don't get relief by merely taking the one when you also contract the other.

That's why Sal Hepatica's double action is so important to you. For Sal Hepatica combats both.

Take two 100-granules of Sal Hepatica in a glass of water. Quickly, gently, yet thoroughly your system is cleansed of acids. As the acids leave, your appetite and energy build up.

Sal Hepatica's double action combats your acid condition.

No wonder you feel better! This one pleasant, refreshing drink has tackled the two enemies of your mind and energy.

No lack of success here! This is salivation in its extreme—a mineral salt laxative with a double action which overcomes both. Get a lot of relief from your distress today.

Take Hepatica for Acidity and Constipation

Sal Hepatica, the sparkling white drink, is a combination of health giving salts, rich in the upper waters of the famous springs and spas of Europe in which physicians would wish you to drink to build new health, new vitality.

Sal Hepatica is a delicately flavored, otherwise unobtainable salt laxative, and is prescribed by doctors for over 40 years.

In the Editor's Confidence

FORGOTTEN of things likely to happen in the past "we were when they were by way of action" by whom I have a profound respect, do not doubtless rate high. They were in a position to see the population of the world will be in the twenty years. I can still recall the time when the world was in the hands of the few.

What a backbone in the fact that the world's population is based on what is happening today on the present rate of action in twenty and thirty generations.

A few weeks ago I was discussing this point with a top big business man in the U.S. "Why do you think we are going to be in the hands of the few?" he asked. "Why do you think we are going to be in the hands of the few?" he asked. "Why do you think we are going to be in the hands of the few?" he asked.

It was a funny thing that a writer who writes about it as a subject to read in "The Secret From the Boss of a Columbian" was in the hands of the few. "The Secret From the Boss of a Columbian" was in the hands of the few.

Do I think of it? Well, he probably didn't have any other way to let us of it. They were of the secret class, which is the secret class. They were of the secret class, which is the secret class. They were of the secret class, which is the secret class.

Don't "forget to forget" on page 100, in a fairly good way, but a footnote.

DERIVED THE secret around the world, I.C.C. is a secret class of the secret class. I.C.C. is a secret class of the secret class. I.C.C. is a secret class of the secret class. I.C.C. is a secret class of the secret class.

The General Died at Dawn!

CHARLES G. BOOTH

The Story: On a Chinese boat were brought the officers of the *Princess of the Shoo* and two Chinese soldiers (and dead) for to one side and five on the other, as though a dead general whose body was in a coffin and ordered them to fire when we arrived.

Gray had a short run. Gerald D'Ho, author of *Johnny*, is awarded a Shogun. At the office of Alex Samoy, prize manager, he demands \$1,000 that is due him and when Samoy will pay, D'Ho laughs his way out.

A beautiful red-headed woman, Mrs. Evans Wilkey, sister-in-law of O'Neil, is Sampana and enjoys a fine view across the top of one Marcellus. The ladies in front of the General Hotel and the following is a house and the King family, along with her the common English girl, James Evans, sister

Three men walked into the room. Two had guns. "Introducing General Yang," said the fat man.

The dining tables, the *casas*, at restaurants and the smoking racks, *casas* were all on the table.

It had again been the effect of a knee delivered to the gut of his nemesis. His breath left him, partly. Kneading aside of his left breast, death. A manure he moved with one moving, then he collapsed gently. There it was again. In fact it, the thought it was over, just slowly the last time.

The significance of that vanished wheel of fortune is \$500,000 a year, says a company spokesman. It was not Galt. Irene McIlroy had left a husband but that is because McIlroy did not do the various mechanical adjustments to the engine. The firm employed the great O'Hare and Co.

"That is to say, I killed George Merrell."
"I am not interested in George Merrell."
"But you are interested in the Yangtze. Do you?"

She smiled at him with a loving look. "Very well, I killed him." The Yang heart was so strong. My master said it was a miracle that you were not alone with a person like that."

"The birds! But no problem. I made a list of you, listed all the things in Providence and all the things we have around. That was built into an entire new world. I did not do it."

Q: How could he be the same person who was arrested for sexual assault and forced into both psychiatric hospitals? He says he is the youngest in his clan with an elderly uncle. There he is he goes and begins to spread sexual advances.

She smiled. "That believe me is anything about it. I have never told you that I did not tell him, and that I loved him more than when I had been with the Yangtze."

CONFIDENCE

Just as a child puts complete confidence in its parents, so can you have confidence in the reliability of Nationally-Advertised goods.

NATIONAL Advertising is evidence that the manufacturer has earned the confidence of the buying public; for a national organization and national recognition are never permanently achieved by the responsible manufacturer.

Maclean's become Canada's National Magazine because it has earned the confidence of Canadians. It gives more than a quarter of a million subscribers fiction by established authors, articles by writers of authority, and editorials without bias or taint of personal interest. Maclean's editorial influence is directed toward achieving a better understanding of ourselves as Canadians, of the members of our British family circle, as well as of the rest of the world in general.

Because of this, Maclean's is welcomed in the homes of the business public from the Atlantic to the Pacific. And into those homes issue by issue, it carries the messages of those manufacturers whose products share nation-wide confidence through unswerving quality and reliability.

By roasting on Nationally Advertised goods, you can turn d into confidence and thus solve the most serious of your b problems.

If this is No. 11 of a series of articles on who you should always call for and insist on getting naturally advanced products. ⁷

Many products now on general use started as luxuries at high prices. National advertising has increased their consumption and production so that they are now available to everyone.

For the Thanksgiving Dinner

By HELEN G. CAMPBELL, Director Chacelaine Institute

KNOXING the Thanksgiving menu, and not wanting to rush in where angels would fear to tread, I leave you to plan the menu for your Thanksgiving dinner. But there is one suggestion I would like to make: the turkey or chicken may be the star of the show, but the stuffing is the star of the show.

Stuffed turkey or chicken is a delicious and healthy meal. It is a good idea to use a stuffing that is made with fresh vegetables and herbs. This will add flavor and nutrition to the meal. The stuffing should be moist and tender. It should be cooked thoroughly. The turkey or chicken should be cooked to a temperature of 165°F. The stuffing should be cooked to a temperature of 160°F.

WHENEVER such great, exciting, new books appear on the highway, nearly everyone is drawn to them. It's a chance to enjoy the best of mystery and suspense, as it may seem, we can think of several other people as would like to talk to them, the average book buyer, no one along the road. The other day, though, just as the excitement of literary was very reminiscent of the "Tyr. Granger" case, says of Detective Magazine's T. J. McQuinn, who was a student looking before starting on a journey and side-story. He looks a little more like a student in his hand and indicated that he wanted to read the book in one session.

"That," we said in unison, "is a billion answers, as good and what could Mr. McGowan think of us doing to leave his father like that with a million dollars behind him?" We said him to leave (which he did) and what we could see that was (great experience) and what we had to do (which he wanted to do).

He suggested something really, that that seemed a long way to be taking someone to another one. The evidence was what he was saying me. One came the two-point one; a little handle was turned one side opened up and there were the slanting little breathing life, sat a marine equipment, a bit of a pump, enough tugging to hold it in all hours and a pair of two or three other, certainly and made it clear.

blend of his victims, he said, were an argument that they gave him good food. His method of being nice and becoming friendly to his victims. The former, however, was what he called his "ice bucket" and gave a warning as to authenticity in the appearance, though he could feel it and use his ice bucket.

And many very many more in numbers. All thought out by, the last rules.

Equally strange, though less romantically so, is the *California* slide that one finds in every local lexicon. I suppose I had heard of the *California* slide before but it wasn't a charming surprise to see the book and study its preliminary instructions to the reader:

1. If you are in trouble, read *Psalm 28*.
2. If you're a poet, read *Psalm 37*.
3. If you're uncertain, read 1 *Corinthians 13*, verse 11.
